INFORMATION. SENIOR MEMBER

CARE LEVEL DESCRIPTIONS

Essential Care – Fully Independent

- Attend primarily for socialization and recreational activities
- Can manage all personal care needs independently
- Are responsible for taking their own medications without reminders
- Can navigate the facility and participate in activities without assistance
- May benefit from avoiding loneliness or isolation
- Are cognitively aware and can make decisions for themselves
- Do not require monitoring for safety concerns

Enhanced Care – Minimally Dependent

- Require minimal verbal cueing or supervision for daily activities
- May need one-person assistance with minor care tasks intermittently
- Have medications administered by staff for proper storage, dosage and timing
- Mild cognitive impairment or need minimal intermittent guidance
- Benefit from a more structured environment and routine
- May need occasional reminders for hydration, meals, or activity participation
- Are generally not at risk for wandering but may benefit from periodic check-ins

Exclusive Care – Moderately Dependent

- Moderate verbal cueing for most daily activities
- Require intermittent partial assistance with tasks
- At risk for elopement and may exhibit wandering behaviors
- Need a secure environment with controlled access
- Require close monitoring due to cognitive impairment or physical limitations
- Specialized activities tailored to their cognitive and physical abilities
- Complex medical needs requiring frequent observation
- Benefit from a higher staff-to-participant ratio
- Often need some assistance with mobility, feeding, or toileting, but not necessarily full assistance
- Require consistent supervision to ensure safety and well-being

Elite Care – Fully Dependent

- Maximum verbal cueing for nearly all activities
- Fully dependent on staff for personal care needs and daily activities
- Exhibits frequent wandering behaviors
- High elopement risk, needing constant supervision
- Needs a highly secure environment with advanced safety measures
- Requires specialized, one-on-one attention for most activities
- May have severe cognitive impairment or advanced physical limitations
- Needs a very high staff-to-participant ratio
- Requires continuous monitoring for safety
- May need specialized medical care or interventions throughout the day
- Participates in highly adapted activities suitable for their abilities
- Requires a meticulously structured environment and routine
